

Outdoor steel table tennis table h939_05

Fixed outdoor table tennis table in SMC and galvanized steel. Dimensions 2740x1525 mm. Professional anti-vandal structure with low maintenance.

The **h939_05 table tennis table** is a professional solution designed for fixed installations in **public and private play areas**. Built to withstand intensive outdoor use all year round, the device solves problems related to structural degradation caused by atmospheric agents and vandalism in unsupervised contexts. The combination of high-performance materials guarantees **excellent durability** and consistent play quality over time.

The **50 mm playing surface** is made of **SMC (Sheet Moulding Compound)**, a polymer composite reinforced with fiberglass and thermosetting resin. This material ensures a **natural ball bounce**, comparable to indoor competition tables, but with superior resistance to impacts and scratches. The **metal structure** and rectangular section legs (80 x 40 x 3 mm) are made of **galvanized steel** with oven-baked painting, a treatment that eliminates the risk of corrosion and rust even in saline or humid environments.

Technical features

- **Surface dimensions:** L 2740 x W 1525 mm
- **Regulation height:** 760 mm (from ground to top surface)
- **Playing surface thickness:** 50 mm in reinforced SMC
- **Surface material:** Thermosetting resin, mineral fillers and fiberglass
- **Total weight:** 120 kg
- **Structure and Legs:** Galvanized and oven-painted steel (rectangular tube 80x40x3 mm)
- **Metal net:** Curved steel tube Ø 20 mm, galvanized and polyester painted with 50 mm handrail and perforated sheet metal
- **Safety:** Absence of sharp edges and floor fixing via 4 expansion bolts (included)
- **Capacity:** 2 to 4 players
- **Recommended safety distance:** 2 m per side
- **Compliance regulations:** UNE EN 14468-1/2015, UNE EN 14468-2/2016 and UNE EN 15312:2007 + A1:2011
- **Available colors:** Green or Blue
