

Outdoor table tennis table in composite material h832_06

Outdoor ping pong table in galvanized steel and composite material (2.74x1.52 m). Fixed anti-vandal structure, accessible to users with disabilities.

The **outdoor table tennis table** is a solution designed for fixed installations in public and sports contexts subject to intensive use. The structure combines a robust **reinforced galvanized sheet metal base** in white with a playing surface made of **high-thickness composite material (60 mm)**, guaranteeing superior resistance to impacts and atmospheric aggression. A distinctive feature is compliance with **PRM accessibility** standards, which ensures the necessary space for passage and use by people in wheelchairs. Safety is a priority, with every component equipped with **rounded corners** to minimize the risk of accidental injuries.

Technical features

- **Dimensions:** 2.74 x 1.52 x h. 0.76 meters
- **Net weight:** 150 kg
- **Required safety zone:** 6.8 x 4.6 meters
- **Playing surface:** Sandwich panel in composite material, thickness 60 mm
- **Surface finish:** Anti-glare treatment integrated into the molding
- **Base structure:** Reinforced galvanized sheet metal, painted white
- **Net included:** Anti-vandal model in electro-galvanized and powder-coated sheet metal, triangular shape with rounded edges
- **Fixing:** Prepared for direct bolting to the ground
- **Regulatory compliance:** EN 15-312 (Free access multi-sport equipment)
- **Inclusivity:** Compliant with PRM standards for universal accessibility
