

Outdoor table tennis table wooden base h832_01

Outdoor table tennis table in 60mm composite material and wood, 2.74x1.52m. PRM accessible with integrated anti-vandal net and rust-proof hardware.

This **professional outdoor table tennis table** is designed to ensure maximum resistance and inclusivity in public and private contexts. The structure is distinguished by a **thick composite material sandwich surface**, molded under pressure to ensure a constant elastic response and superior durability against atmospheric agents. The design integrates natural stained wood legs that meet **PRM accessibility** requirements, allowing easy use for all users. Safety is guaranteed by the fixed steel net and rounded corners, minimizing the risk of injury in high-traffic areas.

Technical features

- **Dimensions:** 2.74 x 1.52 x h. 0.76 m
- **Net weight:** 175 kg
- **Playing surface:** Composite material sandwich (60 mm thickness) molded under pressure
- **Finish:** Anti-reflective made during molding with rounded corners
- **Base:** Natural stained wood legs complying with "PRM Accessibility" standards
- **Safety net:** Central, triangular shape, made of electro-galvanized and powder-coated sheet metal (white color)
- **Net details:** Rounded top part and integrated fixing system to the table body
- **Resistance:** Structure designed to resist impacts, mechanical stress, and bad weather
- **Hardware:** Powder-coated steel with anti-rust treatment
- **Certifications:** Complies with European standards EN 14-468-1 and EN 15-312

Optional: The table top is customizable in different colors upon request.
