

Outdoor totem floor mounting h738_200

Double-sided outdoor minitotem h738_200 with aluminum profiles and convex surfaces in 10/10 sheet metal. Height 140 cm, floor mounting with silver base.

The **h738_200 outdoor totem** is a double-sided column display with a modern and aerodynamic design, engineered to withstand weathering in outdoor contexts. The supporting structure is made with **extruded aluminum profiles** with a silver finish, enclosing convex display surfaces in **white pre-painted 10/10 sheet metal**. This particular curved shape not only gives elegance to the support, but also optimizes the visibility of the message from different angles. The stability of the minitotem is guaranteed by a 6 mm thick circular metal base, designed for **floor mounting**, ensuring a secure hold in outdoor transit areas. With a height of 1400 mm, it represents a compact yet high-impact professional directional and advertising solution.

Technical specifications

- **Structure dimensions:** 1408 x 350 mm
- **Standard height:** 1400 mm
- **Visible area:** 183 x 1400 mm
- **Profile material:** Extruded aluminum
- **Profile finish:** Silver
- **Display surfaces:** White pre-painted 10/10 sheet metal (convex)
- **Base:** Silver powder-coated metal (6 mm thickness)
- **Base diameter:** 350 mm
- **Environment of use:** Outdoor / External
- **Installation:** Prepared for floor mounting

Optional:

- Double-sided UV direct printing on single sheet metal

** Images purely indicative*
