

Outdoor wall belt reel h972_112

Wide belt reel ideal for outdoors. Height: 19.5 cm. Strap length: 10 m. Belt width: 100 mm.

The **H972_112 outdoor wall-mounted belt reel** is a **high-visibility professional solution** designed to delimit **public, industrial, or construction areas** safely and efficiently. It is equipped with a **retractable belt 10 meters long and 10 cm wide**, which ensures extremely visible signaling even from a long distance. This characteristic makes the product ideal for contexts where **safety and visual clarity are essential**.

The structure is made of **high-resistance steel and ABS**, while the belt is composed of **tear-resistant polyester**, a material that ensures **robustness, durability over time, and weather resistance**. It is equipped with a **braking system** for controlled and safe rewinding, and **anti-panic technology** that allows for the automatic release of the belt in case of emergency, favoring rapid evacuation or immediate passage.

The product includes an **adjustable head**, which allows for orienting the direction of the belt as needed, and is supplied **complete with receiver and wall-mounting kit** for quick and complication-free installation.

Thanks to the **exceptional width of the belt (10 cm)** and the **availability in various colors**, the H972_112 adapts perfectly to **situations where it is essential to attract attention and manage access professionally**, such as **industrial plants, depots, logistic warehouses, airports, public entities, and urban furniture spaces**.

Buy the **H972_112 reel** now with a 10 cm wide belt or request a personalized offer for corporate or public supplies!

- **Structure color:** Black
- **Strap colors:** Various options available (e.g., black/yellow)
- **Strap length:** 10 m
- **Strap width:** 100 mm
- **Height:** 195 mm
- **Mounting plate dimensions:** 195 x 146 mm
- **Mounting hole diameter:** 4.8 mm
- **Weight:** 1.20 kg
- **Safety system:** Brake + automatic anti-panic release
- **Installation:** Wall-mounted, with adjustable head
- **Accessories included:** Receiver + complete mounting kit

User benefits:

- **Ideal:** for high-visibility demarcations.
- **Belt:** 10 cm wide for maximum signaling.
- **Materials:** resistant and durable over time.
- **Release:** automatic in emergency situations.
- **Easy:** installation with accessories already included.

FAQ:

1. **Is the strap only available in black/yellow?**

No, the H972_112 model is available in various colors to suit signaling needs.

2. **How wide is the belt?**

The belt is 10 cm wide, twice as wide as standard reels, for superior visibility.

3. **Is everything necessary for assembly included?**

Yes, receiver and mounting kit are included in the package.

4. **Is the mechanism equipped with a brake?**

Yes, the reel has a brake for safe and controlled belt rewinding.

5. **How does the anti-panic system work?**

In case of emergency, the belt detaches automatically, allowing free and rapid passage.

Mini buying guide:

When choosing **retractable wall barriers for outdoor use**, it is essential to consider the **width and visibility of the belt**, especially in environments where it is important to attract attention (for example warehouses, construction sites, or logistics areas).

Choosing a reel with an **anti-panic system** is fundamental in contexts where safety is a priority.

Always check the **quality of the materials** (steel, ABS, polyester), the presence of **included components**, and the **ease of installation** to ensure operational efficiency and reduce setup times.
