

Outdoor wall-mounted ashtray h1003_07

Outdoor wall-mounted steel ashtray with tilting emptying system. Dimensions: W 16 x D 13 x H 19 cm.

The **H1003_07 outdoor ashtray** is a compact and functional solution for managing smoking waste in public spaces. Designed for **urban furniture**, it is ideal for installation in outdoor areas such as **entrances to public buildings, stations, bus stops, offices, or company spaces**, helping to keep the environment clean and tidy.

The structure consists of two elements: a **fixed stainless steel plate** dedicated to extinguishing cigarettes, and a **container body made of galvanized steel painted with thermosetting polyester powders**, which ensures **resistance to corrosion** and atmospheric agents. The container is equipped with a **practical and safe emptying system**, with a tilting front opening and a **lock with a triangular key** (included in the supply), to prevent tampering.

The **wall mounting** allows for a stable and space-saving installation. The discreet design, combined with the possibility of customization with **RAL colors from the chart**, makes this ashtray perfectly integrable into any urban context. Its **low weight (2 kg)** and **compact dimensions** facilitate assembly and maintenance.

Choose the **H1003_07 wall-mounted ashtray** for your public spaces! Order it now or request a quote for customized multiple supplies.

FAQ:

1. **Is the ashtray suitable for outdoor environments?**
Yes, it is built in galvanized and painted steel, resistant to rain and humidity.
2. **How is it emptied?**
The container tilts forward and is locked by a lock with the included triangular key.
3. **Is the wall-fixing material provided?**
No, wall plugs or fixing screws are not included.

4. **Is the ashtray anti-theft?**

It is equipped with a lock with a universal key, which prevents unauthorized opening.

5. **Is it possible to choose the color of the product?**

Yes, the ashtray is available in various colors from our RAL chart upon request.

Mini purchase guide:

When choosing an **outdoor ashtray**, it is essential to evaluate the **robustness of the materials**, especially if it is intended for places exposed to the elements.

The **H1003_07** model combines **resistance and practicality**, thanks to the treated steel structure and the safe and fast emptying system.

The **compact dimensions** make it ideal for passage points or areas where space is limited. **Wall mounting** is the optimal choice to limit the footprint and ensure stability.

Finally, the **chromatic customization** allows for perfect aesthetic integration into the urban or corporate context.

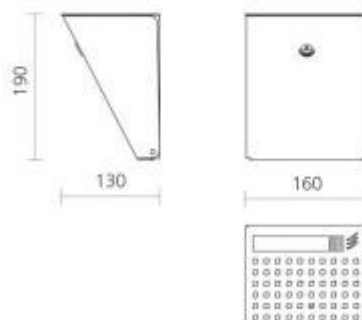

Galvanized steel wall ashtray, outdoor ashtray for urban furniture, compact ashtray with key emptying, H1003_07 wall ashtray, wall-mounted ashtray for public spaces, ashtray with universal key.
