

Outdoor wall-mounted ashtray h109_281

Outdoor wall-mounted ashtray in painted galvanized steel.

Outdoor ashtray consisting of a **tubular steel structure**. An opening is created in the front of the tube, in which a perforated sheet metal grid is inserted, serving as a cigarette extinguishing surface. Inside the tube, there is a drawer container that can be extracted from the front by unlocking a **universal key lock**, which allows for the removal of a closing door. The cigarette extinguisher is closed at the top with a welded sheet metal cap. At the rear, it is provided with plates for wall mounting using expansion bolts. All **metal parts** are **galvanized and painted** with thermosetting polyester powders in various RAL colors. **It helps keep the environment cleaner** because, in addition to allowing the cigarette to be extinguished, it has a container where cigarette butts can be thrown. This way, there will be no more butts on the ground. Furthermore, thanks to the internal container, emptying is quick and easy.

Technical features:

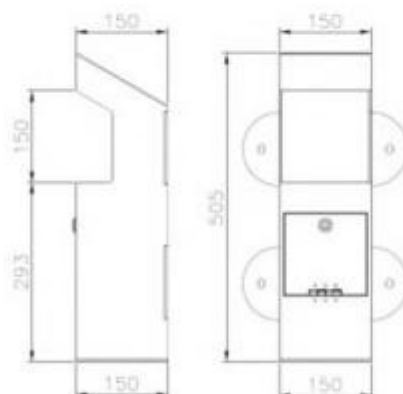

- Material: painted galvanized steel
- Wall mounting
- Dimensions: W.150xD.150 h.293 mm

*different colors are available upon request for a quote from the attached photo

INFORMATION

- Height in millimetres 505.000000
