

Outdoor wall-mounted belt winder h972_111

Winder with panic brake, ideal for outdoors. Dimensions: W 5 x H 14.5 cm. Belt length: 10 m.

The **H972_111 outdoor wall-mounted winder** is a professional and reliable solution for the **temporary or permanent delimitation of safety areas** in outdoor contexts such as **parking lots, public areas, industrial spaces, or construction sites**. With a **retractable belt 10 meters long and 5 cm wide**, this system allows for effective signaling thanks to the **available colors: red, black, white/red, or black/yellow**.

The belt is made of **tear-resistant polyester**, a material highly resistant to mechanical stress and atmospheric agents. The winder body is constructed from high-strength **steel and ABS**, which ensures **durability and robustness** even in challenging environmental conditions. It is equipped with a **braking system** and **panic technology** that automatically releases the belt in case of emergency, facilitating evacuation or rapid passage.

Installation is simple thanks to the **adjustable head**, which allows the belt exit direction to be adapted based on the desired position. Furthermore, the product is supplied **complete with a terminal receiver and wall-fixing accessories**, for immediate assembly without the need for additional components.

Compact and lightweight (only **1.80 kg**), yet extremely solid, the H972_111 represents the ideal choice for those looking for a **professional signaling and safety device**, with excellent durability and **maximum operational efficiency**.

Order the **H972_111 wall winder** now or contact us to receive a personalized offer for multiple orders!

- **Belt:** in durable and tear-resistant polyester.
- **High visibility:** thanks to the available colors.
- **Mounting:** simple with accessories included.
- **Release:** automatic in emergency for greater safety.

FAQ:

- 1. Is the product also suitable for indoors?**
The product is designed for outdoors.

2. **Is the mounting kit included?**

Yes, the product comes with a receiver and fixing accessories.

3. **What is the material of the belt?**

The belt is made of tear-resistant polyester, ideal for intensive use.

4. **Is the mechanism automatic?**

Yes, it is equipped with an integrated brake and automatic release in case of emergency.

5. **Can I choose the belt color?**

The product is available in the colors indicated above.

Mini purchase guide:

When you need to choose an outdoor wall winder, consider the **belt length** based on the area to be delimited, the **resistance of materials** such as steel and polyester, and the presence of **safety systems** such as the brake and panic release.

High-visibility colors are essential for making the system clearly recognizable, especially in public or corporate contexts.

Finally, always check that installation is simple and that accessories are included, for quick and hassle-free assembly.

Outdoor wall winder 10 m, red white retractable belt, H972_111 professional delimiter, panic winder for construction sites, safety system for public areas, outdoor tear-resistant belt, wall-mounted winder for urban furniture.
