

Outdoor water fountain h677_11

Inclusive concrete fountain for public spaces. Dimensions: W. 430 X D. 1100 X H. 900 mm. Available in different finishes.

The outdoor water fountain is made of high-quality fiber-reinforced concrete with a polished surface treated to resist UV rays and atmospheric agents. The product is equipped with **a stainless steel basin** and thanks to the water-saving **water dispensing system** the flow stops automatically so as not to waste water. The unique shape of this urban furniture fountain makes it **suitable for wheelchair users**, allowing them to drink without having to move their chair. **Available in different finishes.**
