FAQ :

- 1. Is the bench suitable for public areas?**
Yes, it is designed for public parks, schools, and play areas, in compliance with EN 1176 standards.
- 2. Do the side panel colors fade over time?**
No, the polyethylene side panels are treated to resist UV rays, maintaining bright colors even after long sun exposure.
- 3. What materials guarantee the product's durability?**
The treated glulam wood seat and polyethylene side panels ensure resistance to weather, wear, and impacts.
- 4. Is it safe for children with motor disabilities?**
Yes, the design is intended to offer safe and comfortable use for all children, even those with special needs.
- 5. Does it require much maintenance?**
No, the bench is designed to minimize maintenance thanks to the durability of the materials used.

Mini buying guide

To choose the ideal bench for your playground, carefully evaluate **compliance with safety standards**, such as **EN 1176**, which guarantees safe use in public places. It is important to opt for weather-resistant materials, such as **autoclave-treated wood** for the seat and **colored polyethylene** for the side panels, which offer robustness and a touch of creativity.

The **H763_17** bench is perfect for those looking for a functional and fun piece of furniture, capable of **stimulating children's imagination** and **promoting barrier-free play**. Thanks to its ease of installation and the low maintenance required, it represents the ideal solution for public areas, schools, and outdoor recreational spaces.

Dragon-shaped children's bench, EN 1176 certified inclusive bench, playground equipment for children with disabilities, wooden bench for public parks, urban furniture for playgrounds, bench for schools and play areas, treated wood children's seat, accessible playground bench.
