

## Outdoor wooden litter bin with roof h287\_392

Street furniture litter bin in galvanized steel and pine slats (32x43x100 cm). Structure with protective roof and key-operated emptying system.

The **outdoor litter bin h287\_392** is a professional waste collection system designed for integration into urban furniture contexts, parks, and public green areas. The structure combines the **mechanical solidity of galvanized steel** with the natural aesthetic of **pressure-treated pine wood slats**, ensuring a solution resistant to heavy use and prolonged exposure to weather conditions. The design includes a shaped **protective roof** that prevents rainwater from entering, optimizing content management and maintenance cycles.

## Technical features

- **Basket structure:** Made of 10/10 thick galvanized steel sheet.
- **Cladding:** Pine wood slats pressure-treated with non-toxic salts, certified for resistance to fungi and rot.
- **Roof:** Top cover in 30/10 extra-thick galvanized pressed sheet metal.
- **Support:** Round galvanized steel tube pole equipped with a base plate for stable anchoring to the floor.
- **Locking system:** Quick emptying mechanism via release with a safety Allen key (included in the kit).
- **Capacity:** Internal loading volume of approximately 27 liters.
- **Metallic finish:** Powder coating cured in an oven at 180/200°C for high chemical-physical protection.
- **Overall dimensions:** 32 x 43 x H 100 cm.
