

Overbed table with fixed top h919_49

Overbed table h919_49 with adjustable height (780-1200 mm) in steel and polystyrene with 600x400 mm top, 4 wheels and containment edge.

The **Overbed table with fixed top h919_49** is a professional structure specifically designed to facilitate the administration of meals and the performance of daily activities for bedridden patients or people with motor difficulties. This aid solves the operational problem of instability and difficulty of access to traditional support surfaces during hospitalization, providing an adjustable and easily positionable surface at the bedside. Intended for healthcare personnel, caregivers and care facilities, the table is made with a base in epoxy powder coated steel tube and a polystyrene (PS) top with dimensions of 600 × 400 mm. The base structure, with a footprint of 680 × 470 mm, is equipped with 4 wheels of Ø 50 mm (2 with brakes) to ensure maneuverability and safe positioning. Manual height adjustment allows the top height to be varied from a minimum of 780 mm to a maximum of 1200 mm, adapting to different types of beds or seats. The integrated plastic top features a liquid containment edge, supports a maximum temperature of 70 °C and guarantees a maximum load capacity of 12 kg with the load positioned in the center. The entire device weighs 8 kg, has overall dimensions of 695 × 470 × (780–1200) mm and is manufactured by a certified producer according to NP EN ISO 9001 and NP EN ISO 13485 quality management systems.

Technical characteristics

- **Base material:** Epoxy powder coated steel tube
- **Top material:** Polystyrene (PS)
- **Overall dimensions:** 695 × 470 × (780–1200) mm
- **Base dimensions:** 680 × 470 mm
- **Top dimensions:** 600 × 400 mm
- **Height adjustment:** Manual, from 780 mm (min.) to 1200 mm (max.)
- **Maximum top load capacity:** 12 kg (with centrally positioned load)
- **Top thermal resistance:** Maximum temperature supported up to 70 °C
- **Top features:** Plastic top with liquid containment edge
- **Mobility system:** 4 wheels Ø 50 mm, 2 of which with brakes
- **Weight:** 8 kg
- **Manufacturer certifications:** Quality management system compliant with NP EN ISO 9001 and NP EN ISO 13485
