

Oxygen cylinder transport trolley h695_12

Oxygen cylinder trolley with painted steel structure, 5 wheels Ø50 mm, safety belt, for 10/11 liter cylinder, capacity 25 kg.

The oxygen cylinder trolley is a support specifically designed for the safe handling of cylinders within healthcare environments such as hospitals and clinics, as well as in private homes. It allows for quick and controlled transport, reducing the risks of falling and keeping the cylinder in a stable vertical position during movement.

The **robust powder-coated steel structure** guarantees durability and hygiene, with a **safety belt** that ensures the containment of the cylinder during movement. The **5 wheels with a diameter of 50 mm**, 2 of which are lockable, allow easy movement even in limited spaces, with the possibility of braking the trolley when necessary.

Technical features

- Steel structure
- Powder coating, RAL 9016
- Compatible with 10/11 liter cylinders
- 5 wheels Ø50 mm, 2 lockable
- Height: 960 mm
- Base diameter: 640 mm
- Maximum load: 25 kg
- Weight: 4.9 kg
