

Oxygen cylinder trolley 15/20 liters h5510

Single-cylinder holder in painted steel for healthcare facilities and home care. Ø150 wheels, CE compliant, Italian production.

The **single-cylinder holder** is a solution designed for healthcare facilities, nursing homes, clinics, and home care services. It allows for the safe and stable transport of oxygen cylinders and other medical gases in hospital and local environments, meeting the mobility and practicality needs of healthcare personnel.

The structure is built with robust materials and manufactured entirely in Italy according to high quality standards. The acrylic powder coating ensures long-term resistance, while the ergonomic accessories facilitate daily use in professional contexts.
