

Oxygen cylinder trolley for 10L cylinder h705_09

10L oxygen cylinder trolley with painted steel structure, Ø150mm ring, ergonomic handle, 5 double wheels Ø65mm (2 lockable). CE certified.

The oxygen cylinder trolley is an indispensable device for the safe handling of 10 L oxygen cylinders in hospital environments and private homes. It allows for practical and fast transport while maintaining stability and control during movement.

The structure is **made of partially welded steel with RAL 9002 powder coating**, ensuring strength and durability over time. The trolley is equipped with a **welded Ø 150 mm cylinder ring** specifically sized for 10 L cylinders, integrated into a fixed mounting prism with a safety strap. The **ergonomic and curved handle** facilitates grip and reduces fatigue during prolonged use.

Mobility is guaranteed by **5 high-quality plastic double wheels Ø 65 mm**, 2 of which are lockable, allowing for both easy transport and stable fixing when necessary.

Technical features

- Material: steel
- RAL 9002 powder coating
- Curved and ergonomic handle
- Welded Ø 150 mm cylinder ring
- Capacity: 10 L cylinder
- 5 high-quality plastic double wheels Ø 65 mm (2 lockable)
- Certification: CE
- Safety strap for cylinder

Image purely indicative

INFORMATION

- **Capacity** 10 lt
