

Oxygen cylinder trolley h55_51

Oxygen cylinder trolley in painted steel with 3 containment rings, 2 rubber wheels, fastening straps. For 5/7/14 lt cylinders, capacity 60 kg.

Cylinder trolley specifically designed for healthcare environments such as clinics, hospitals, and ambulances, where safe and practical transport of oxygen cylinders is essential. The **painted steel structure with acrylic coating** ensures resistance and hygiene, while the three **containment rings positioned at different heights** (16, 28, and 63 cm) ensure cylinder stability during movement. The **2 rubber wheels with 15 cm diameter** and the **ergonomic handle** facilitate manual transport, reducing operator fatigue. The fastening system with **blue buckle straps in the second ring** prevents the cylinder from slipping even on irregular surfaces.

Technical features

- Dimensions: W 32 × D 38 × H 110 cm
- Compatible cylinder diameter: 21 cm
- Supported cylinder volumes: 5, 7, 14 liters
- Containment ring heights: 16, 28, 63 cm
- Loading plate: 20 × 25 cm
- Rubber wheels: 2 × diameter 15 cm
- Fastening strap: 70 cm, blue color, metal buckle
- Structure material: steel with acrylic painting
- Trolley weight: 4 kg
- Maximum capacity: 60 kg
- Certification: CE compliant
