

Pack of 2 arm restraint straps h983_01

100% cotton arm or ankle restraint straps, with velcro closure and anti-chafing cuff. Total length: 100 cm. Adjustable circumference: from 15 to 30 cm. Cream color. Pack: 2 pieces.

The **H983_01 arm restraint straps** are **restraint devices** designed to **safely limit the movement of arms or ankles**, ensuring comfort and protection. Ideal for use in **hospitals, clinics, and healthcare facilities**, they are intended exclusively for **specialized medical personnel**.

Made of **100% cotton**, they offer a **soft and breathable** fit, while the **anti-chafing cuff** reduces the risk of skin irritation. The closure system with **adjustable velcro** and **5 Nickel/Brass alloy eyelets** allows for **optimal adjustment** based on the patient's needs.

The straps are supplied in a **bag of 2 pieces**, with the possibility of purchasing **security buttons and a security key separately**, which allow for **further protection through controlled closure**.

To be used exclusively by **specialized healthcare personnel**.

Buy the **H983_01 arm restraint straps** now to ensure safety and comfort for patients in healthcare environments! Request a personalized quote immediately.
