

Painted metal pedal bin h41331

70L rectangular painted metal bin with pedal opening and front door, for waste sorting, equipped with bilingual pictogram and trolley with wheels.

Rectangular bin designed for high-traffic professional environments, such as restaurants, hotels, bars, industries, and canteens. Made of **painted metal**, it combines operational practicality and immediate identification of the type of waste thanks to the included pictogram.

The two-tone design – **white body and lid, black handle, pedal, and trolley** – allows for aesthetic integration in different professional contexts, while the **pedal opening of the lid** and the **front door** guarantee ergonomic access from multiple positions.
