

Painted steel parking bollard h328_31

Painted steel parking bollard Ø61mm, height 900mm, removable flat head, white and red for high visibility in outdoor areas.

The **parking bollard h328_31** is a control and delimitation element designed for parking areas, restricted access, and urban zones requiring effective visual signaling. Made of **painted steel**, it offers robustness and long-lasting protection in outdoor environments subject to atmospheric agents and mechanical wear.

With a **height above ground of 900 mm** and a **diameter of 61 mm**, the bollard combines immediate visibility with structural stability. The **flat head** provides a linear and modern appearance, while the **removable** feature ensures management flexibility, allowing for quick adaptation of space configurations based on operational needs. The **white and red** painting guarantees optimal visual signaling, making it suitable for urban, private, and industrial contexts.

Technical features

- **Material:** Painted steel
- **Diameter:** 61 mm
- **Height above ground:** 900 mm
- **Head shape:** Flat
- **Configuration:** Removable
- **Finish:** White and red
