

## Painted steel scale chair h634\_64

Hemodialysis scale chair for the prevention of cross-infections. Available in various colors. Dimensions: W.1480 x D.890 x H.1400 mm.

**The clinical treatment scale chair** has been designed for the prevention of cross-infections and is characterized by the integrated weighing system with an LCD digital indicator. The product consists of an **anti-tilt frame painted with thermosetting epoxy powders** enriched with antibacterial. The surface is divided into 3 sections: backrest, seat, and legs and is composed of two separate backrest and seat/legs. **The fire-retardant eco-leather upholstery** allows for effective and functional sanitization to reduce cross-infections and is available in various colors.

The chair is also characterized by: simultaneous and independent movement of the backrest and leg sections via 2 motors, 10° Trendelenburg position, armrests integral with the backrest movement, removable, with rotation function, up/down tiltable, 90° fold-away, **peripheral push-button panel equipped with a 3.5 m spiral cable to manage all movements.**

**The 4 durable**, anti-static, stainless, swivel wheels Ø 100 mm allow for quick and practical movement.

### Technical features:

- Thermosetting epoxy powder-coated steel frame
- Anti-tilt frame
- Surface divided into 3 sections: backrest, seat, and legs
- Armrest movement integral with the backrest
- 10° Trendelenburg position
- 4 durable, anti-static, stainless, swivel wheels Ø 100 mm
