

## Design round tube guidance bollard h16210

Modern style guidance column. Round steel tube with cast iron base. Belt 2.30 m long and 5 cm high

Mobile guidance post made of **steel or stainless steel** ideal for delimiting waiting areas and restricted zones.

The retractable belt mechanism is equipped with a slow-retraction self-winding system thanks to the integrated brake. The **safety terminal hook** of the belt consists of shatterproof plastic material. With the belt winding mechanism housed inside the column, the belt is protected from dirt, dust and wear.

The **column is 4-way**: one belt extending and three docking ports. **Up to 3 belts can thus be added to the same post.**

The **mobile post** is flexible and easy to install; it includes a **rubberized cast iron base** to protect the floor from scratches and any damage. Assembly is simplified thanks to the presence of a lever.

The product is available in various finishes: black, polished stainless steel, satin stainless steel, brass and polished chrome.

#### Technical features:

- Belt length: **2.30 m**
- Belt width: **5 cm**
- Total weight: approx. 12 kg
- Base weight: approx. 9 kg
- Tube material: steel or stainless steel
- Base material: cast iron (rubberized)

#### On request the product is available with the following fixings:

- Permanent post: the base plate of the post is mounted with screws directly to the floor
- Removable post: the post can be easily inserted into the mounting plane. When the post is not in use, a cover plate hides the hole in the floor.
- Magnetic post: the post is equipped with a magnetic base that connects to the stainless steel plate
