

Mobile post with double 22 m belt h16217

Protection system with double belt reel with 360° rotation. Belt length: 22 m. Equipped with centrifugal brake. Base with 2 wheels. For outdoor use

The **double belt post** is ideal for blocking potentially dangerous or large areas quickly and easily. Ideal for industrial use and for delimiting urban areas.

To allow **full flexibility** in use, the post is composed of **2 belt reels rotatable by 360°**, to allow the belt to extend in any direction.

In addition, the 22-meter belt is equipped with an integrated **centrifugal brake** in case it is accidentally released.

Strong and sturdy aluminum construction easy to handle, equipped with a low center of gravity and wheels that allow easy movement. Furthermore, a practical handle promotes and facilitates movement.

The post structure is made **of aluminum**, while the base with integrated wheels is made of **plastic** material.

Technical features:

- Belt length: 2x 22 m
- Belt width: 50 mm
- Belt color: Neon yellow, Black, White and red and yellow and black
- Total weight: approx. 55 kg
- Base weight: approx. 37.5 kg
- Tube material: Aluminum
- Base material: plastic
- outdoor use: yes

The product is supplied with belts with standard coupling, **upon request** it is possible to receive a free quote with different coupling systems.
