

Pallet box with wheels and iron frame h836_29

525 lt HDPE pallet box with solid walls and Ø 125 mm wheels on iron frame. Food-grade for logistics and goods storage.

The **industrial pallet box** is designed to optimize logistical flows and the handling of large volumes of goods in professional contexts. The structure is made of **HDPE (High-density polyethylene)**, a material that guarantees high resistance to impacts and thermal variations. The base is reinforced by a **painted iron frame** onto which four wheels are welded, facilitating the manual movement of the load within production areas.

This model stands out for its **solid walls** configuration, ideal for containing bulk products, semi-finished goods, or materials that require full protection from external agents. Thanks to compliance for **food contact**, the container is suitable for use in agri-food supply chains and food processing.

Technical features

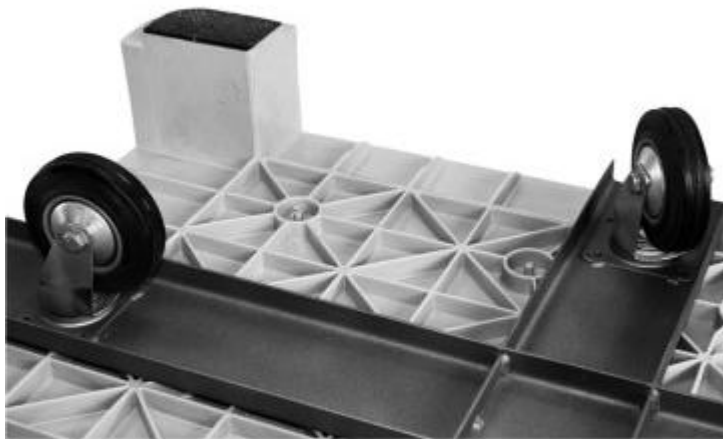

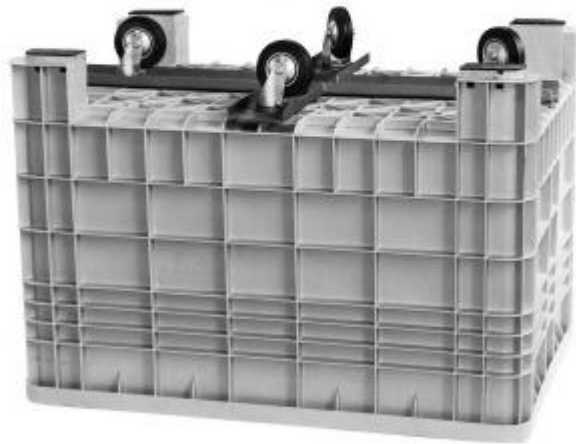

- **External dimensions:** 1160 x 800 x 830 mm
- **Internal dimensions:** 1100 x 730 x 650 mm
- **Capacity:** 525 liters
- **Wheels:** Ø 125 mm welded on frame
- **Frame:** Painted iron
- **Structure:** Solid walls and bottom
- **Material:** HDPE (High-density polyethylene)
- **Color:** Grey
- **Suitability:** Direct food contact
