

Bench with wooden slats h19147

Modern bench made of a single block of grey concrete and marble grit with wooden slats. Dimensions: L. 200 x D. 40 x H. 45. Weight: 270 Kg.

Bench for urban furniture capable of bringing beauty and functionality together, suitable for any environment: square, park, pedestrian zone, seafront promenades, etc.

With a modern and refined design, the bench provides a pleasant aesthetic effect thanks to the insertion of **wooden slats** in a part of the seat, thus breaking the linearity of this bench.

Made of a **single block of grey concrete** and marble grit available in various colors with an etched surface finish.

The bench **h19147** is available in the following colors:

- Etched grey concrete
- Rosso Verona marble grit
- Occhialino marble grit

Technical features:

- Concrete: single block of grey concrete and wooden slats
- Width: 200 cm
