

Concrete bench with steel structure h19150

Street furniture bench made of marble grit and with a steel structure. Dimensions: L.185 x D.60 x H. 65 cm. Weight: 320 Kg.

Street furniture bench comfortable and functional, able to adapt perfectly to any environment, both public and private. The refinement of the details makes it particularly elegant and easy to integrate even in contexts where a high quality level is required. The lightness of the line contrasts with the solidity of the bench, made of **two concrete and marble grit elements** connected to each other by a **steel structure**, which enhances its shape and provides greater stability.

Technical features:

- Material: marble grit
- Steel structure
- Width: 185 cm
- Depth: 60 cm
- Height: 65 cm
- Weight: 320 Kg
- without backrest
