

Outdoor concrete bench h19148

Urban furniture bench made of a single monoblock of grey concrete and marble grit. Supplied assembled. Dimensions: W.150 x D. 50 x H.44 cm. Weight: 240 kg.

Urban furniture bench comfortable and cozy with a modern and sophisticated design. **The h19148 bench** with its compact dimensions, is easily used in any outdoor furniture arrangement such as pedestrian areas, squares and parks. Seat and relative lateral supports made of a single **concrete monoblock**. Its outer perimeter is characterized by a particular play of lines due to the union of the rounded profile in the linear parts and the flat profile in the lateral curved parts.
