

Paneled tray trolley capacity 10 EN trays h2200153

Professional single-column tray trolley, entirely made of **stainless steel** with **side paneling**. Capacity **10 EN format trays** (53x37 cm), sturdy square tube structure and 12.5 cm swivel wheels. Elegant and hygienic design for restaurants and catering.

The **professional paneled tray trolley** is the ideal solution for hospitality facilities seeking the maximum in hygiene and aesthetic decorum. Characterized by a **pair of stainless steel side panels**, this model allows trays to be shielded from the guests' view, while ensuring a more rigid and protected structure. Made entirely of stainless steel, it ensures impeccable resistance to corrosion and extreme ease of sanitization.

The supporting structure in square tube (2x2 cm section) with bolted crossbars gives the trolley superior stability, eliminating the oscillations typical of lighter structures. It is designed to accommodate **10 EN (Euronorm) format trays** with dimensions 53x37 cm, housed on "L" shaped stainless steel sheet rails with a pitch of 11 cm. Thanks to the 12.5 cm swivel wheels and gray rubber corner bumpers, maneuverability is smooth and safe in every operational context, from dining rooms to kitchen areas.
