

Paneled Tray Trolley capacity 12 GN 1/1 h2200152

Professional single-column tray trolley, entirely made of **stainless steel** and **side-paneled**. Capacity **12 GN 1/1 trays**, robust 2x2 cm square tube structure and 12.5 cm swivel wheels. Hygienic and tidy design, ideal for canteens and self-service.

The **paneled tray trolley** is the professional solution designed to combine operational efficiency with a refined and tidy aesthetic. The distinguishing feature of this model is the presence of **two stainless steel side panels**, which not only provide greater stability and protection to the load, but also partially shield the contents from view, maintaining a decorous image within the dining room or self-service area.

Entirely made of **high-quality stainless steel**, the trolley features a square tube structure (2x2 cm section) with bolted crossbars that guarantees its non-deformability over time. It is configured to accommodate **12 GN 1/1 format trays** (53x32.5 cm) on "L" shaped stainless steel sheet runners, with an 11 cm pitch to facilitate insertion and extraction. 360° maneuverability is ensured by four 12.5 cm swivel wheels, while corner bumpers protect the structure and environments from accidental impacts.

Technical features

- **Structure material:** Stainless Steel (square tube 2x2 cm section)
