

Parcel transport trolley for warehouses h1004_02

Parcel transport trolley h1004_02 in welded steel with wood-effect platform 700x445 mm. Load capacity 300 kg, solid rubber wheels and ergonomic handle.

The **parcel transport trolley h1004_02** is a professional solution designed for the **manual handling of loads** in contexts requiring robustness and reliability. Designed for warehouses, workshops and logistics depots, this push-handle trolley facilitates the internal transport of heavy goods, solving the problems related to the physical effort of operators and ensuring superior stability during transit.

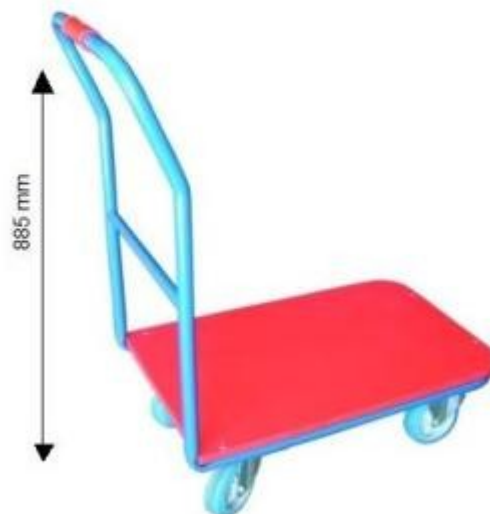

Technical features

- **Structure:** high-resistance welded tubular steel
- **Overall dimensions:** W. 800 x D. 445 x h. 895 mm
- **Loading base dimensions:** W. 700 x D. 445 mm
- **Loading platform:** surface with sequoia wood-effect finish
- **Wheel system:** 2 fixed and 2 swivel for optimal maneuverability
- **Wheel diameter:** Ø 125 mm
- **Wheel material:** anti-vibration solid rubber
- **Trolley weight:** 10 kg
- **Maximum capacity:** 300 kg
- **Environment of use:** professional, specific for indoors
