

Park bench in pine wood h109_368

Backless bench with anthracite structure and pine slats. Dimensions: W 175 x D 70 x H 43 cm.

The **H109_368 outdoor bench** is an elegant and functional urban furniture element, designed for installation in **public parks, gardens, pedestrian areas, cycle paths, relaxation areas in hotels, farmhouses, and campsites**. Its **modern and meticulous design** fits perfectly into **public and private spaces**, thanks to the combination of resistant materials, essential lines, and excellent construction quality.

The **structure** of the bench is made of **galvanized steel and thermosetting polyester powder coated** in **anthracite** color, which guarantees **high resistance to atmospheric agents, corrosion, and degradation from outdoor exposure**.

It is prepared for **ground fixing** via holes on the base plate, which ensure **stability and safety even in high-traffic public contexts**.

The **seat consists of autoclave-treated pine wood slats** to offer a natural, comfortable, and resistant support surface. The shaped metal structure offers **a compact yet solid aesthetic**, with a tapered base (lower width 405 mm) resting on **support feet** for perfect load distribution.

All **hardware is in stainless steel**, resistant to rust and wear, to ensure maximum durability over time with **minimal maintenance**.

Enhance your urban or private spaces with the **H109_368 wood and steel bench**. Contact us for personalized quotes on public projects, urban furniture, or large quantity supplies.

FAQ:

1. Is this bench suitable for year-round outdoor use?

Yes, it is made with materials treated to resist rain, humidity, temperature fluctuations, and UV rays.

2. **Is fixing mandatory or can it be placed freely?**

Ground fixing with bolts is strongly recommended to ensure safety and stability.

3. **What are its dimensions?**

Its dimensions are W 175 x D 70 x H 43 cm.

4. **Does the steel structure deteriorate over time?**

No, the steel is galvanized and thermosetting powder coated, ensuring durability and anti-corrosion protection.

5. **What is the color of the structure?**

The structure is anthracite in color.

Mini buying guide:

When choosing a **bench for urban furniture**, it is fundamental to consider **durability, comfort, design, and ease of installation**.

The **H109_368** perfectly meets these needs, with a **robust galvanized steel structure, elegant anthracite finish, and outdoor-treated wood seat**, which offers **natural comfort and resistance**.
