

Park bench with wooden seat for public parks h140_563

Urban bench 150 cm with high-quality Okumè wood seat and galvanized steel backrest. Robust 3-seater structure with integrated armrests. Weight: 45 kg.

The **public park bench h140_563** represents a perfect synthesis between the warmth of natural wood and the industrial strength of steel. Designed for urban furniture and green areas, this 150 cm seat solves the problem of aesthetic durability thanks to the use of **Okumè wood**, known for its natural resistance to atmospheric agents. The supporting structure consists of **80x6 mm flat iron supports**, shaped to include ergonomic armrests. The backrest, made with square tubular galvanized steel profiles, features a 100° inclination designed to offer optimal postural support. Total protection against corrosion is guaranteed by a **thermosetting powder coating** cycle, available in elegant mouse grey or anthracite grey finishes.

Technical characteristics

- **Dimensions:** 150 x 60 x 84h cm
- **Seat height:** 44 cm
- **Seat material:** Shaped Okumè wood slats section 150x35 mm
- **Backrest material:** Square tubular galvanized steel profiles section 20x20 mm
- **Structure:** Lateral supports in 80x6 mm flat iron with armrests
- **Backrest inclination:** 100° (optimal ergonomics)
- **Metal treatment:** Galvanization and thermosetting powder coating
- **Available finishes:** Mouse grey (RAL 7005) or Anthracite grey (RAL 7016)
