

Parking bollard h328_35

Removable painted steel parking bollard, diameter 76 mm, height 900 mm, flat head, white and red painting for high outdoor visibility.

The **parking bollard h328_35** is a professional bollard made of high-quality **painted steel**, designed to delimit and protect

parking and stopping areas. The removable structure allows for flexible space management according to operational needs, while the **white and red painting** ensures optimal visibility and clear visual communication even in low light conditions. The **flat head** design provides a sober and functional appearance, reducing the risk of injury compared to pointed solutions. Weather resistance makes the product suitable for permanent or temporary installations in outdoor environments.
