

Parking bollard h972_65

Steel Ø30 mm parking bollard with folding ring, square base, Class 1 reflective strips, yellow color, complete with 2 keys and 4 anchoring fixings.

The **H972_65 parking bollard** prevents unauthorized access to private parking spaces, loading areas and reserved zones. It combines access control functionality with high visibility, ensuring effective protection in both private and residential contexts.

The structure consists of a **Ø30 mm steel ring** mounted on a **square central base** (74 × 18 × 47 cm). The material, **epoxy powder-coated steel**, ensures long-lasting resistance to corrosion, atmospheric agents and impacts. **Class 1 reflective strips** guarantee visibility even in low light conditions, while the **high-visibility yellow color** promotes immediate identification in any context.

The equipment includes **2 keys for locking/unlocking** and **4 fixings for ground anchoring**, facilitating rapid installation and secure maintenance of the reserved space.

Technical characteristics

- Main material: epoxy powder-coated steel
- Color: high-visibility yellow
- Ring diameter: Ø30 mm
- Reflective strips: Class 1
- Base: central, square
- Dimensions: 74 L × 18 W × 47 H cm
- Equipment: 2 keys and 4 fixings for ground anchoring
