

Pastry tray trolley h220_239

Compact stainless steel pastry trolley for 7 trays (60x40 cm). Robust structure (53x68x101 cm) with upper work surface, safety lock system and braking wheels.

The **professional 7-level tray trolley** is a versatile and essential solution for logistics organization in pastry shops, bakeries, hotels and restaurants. Made entirely of **stainless steel** with a solid square tube frame (25x25 mm), this model combines the storage function with the practicality of a mobile station thanks to the **integrated work shelf**. The structure is calibrated to accommodate standard **600 x 400 mm** trays, ensuring maximum safety during movement via an effective container locking system. The ergonomic height makes it ideal as an extension of existing workbenches, facilitating the transition between preparation and cooking areas.

Technical features

- **Material:** professional stainless steel (resistant and hygienic)
- **Frame:** 25 x 25 mm square section tubes
- **Capacity:** 7 trays of 600 x 400 mm (pastry/bakery)
