

Pastry trolley for 60x40 cm trays h099910

Double stainless steel pastry trolley for 40 trays (60x40 cm). Reinforced structure (51x80x177 cm) with 4 multidirectional 125 mm wheels.

The **professional high-capacity tray trolley** is the ultimate solution for intensive logistics in pastry laboratories, bakeries, and industrial cooking centers. Made entirely of **stainless steel**, this model solves the problem of massive storage for large production batches, offering an exceptional capacity of **40 trays of 60 x 40 cm** in a single mobile unit. The double-lane structure allows for optimizing workflows during critical phases of unloading, cooling, and preparation, while ensuring maximum hygiene and corrosion resistance. Thanks to the oversized 125 mm wheels, handling significant loads is smooth and safe, making this trolley a fundamental pillar for the operational efficiency of any professional kitchen.

Technical features

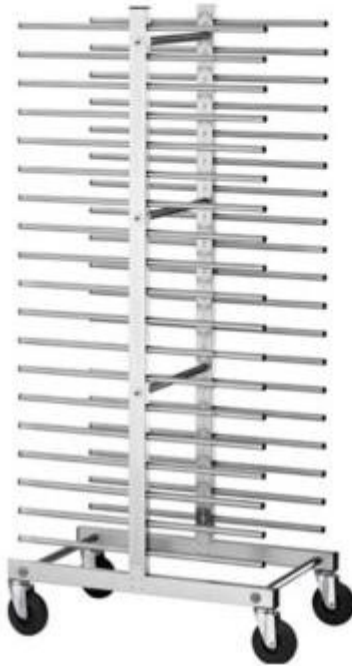

- **Material:** high-strength professional stainless steel
- **Capacity:** holds 40 trays of 60 x 40 cm (double configuration)
- **Distance between levels:** 6 cm to optimize vertical storage
- **Total dimensions:** W. 51 x D. 80 x H. 177 cm
- **Handling:** 4 high-smoothness multidirectional wheels
- **Wheel diameter:** 125 mm to easily overcome small height differences
- **Hygiene:** smooth surfaces compliant with HACCP protocols
