

Patient room wardrobe with lower compartment h776_97

Open wardrobe with clothes rail, upper compartment and lower compartment. Dimensions: W 93.8 x D 60 x H 239.4 cm

The **H776_97 wardrobe** is a practical and essential solution for furnishing **double patient rooms in hospitals, nursing homes, and clinics**, ideal for environments where order, hygiene, and immediate accessibility are fundamental. With an **open structure (without doors)**, this model offers **maximum visibility of the content** and facilitates the work of healthcare personnel, who can quickly monitor the spaces dedicated to the patients' personal belongings.

It is equipped with a **clothes rail, upper compartment** for storing rarely used items, and **open lower compartment** for footwear or accessories.

Thanks to the width of **93.8 cm**, it is perfectly sized to serve **two patients in a double room**, maintaining a well-organized and divided space. The **18 mm thick structure** guarantees robustness and durability over time, even in contexts of intensive use. The sober and modern design adapts to every healthcare context and is available in **different finishes**, as shown in the photo.

Choose functionality and resistance for your ward environments. Contact us now to receive a customized quote for the **H776_97 wardrobe**.
