

Patient ward wardrobe with door h776_92

Single wardrobe with door, clothes rail and upper compartment. Dimensions: W 48.8 x D 60 x H 199.4 cm.

The **H776_92 patient ward wardrobe** is designed to meet the needs of **healthcare facilities, hospital departments, nursing homes (RSA) and private clinics**, guaranteeing functionality, hygiene and practicality in a single compact product. Equipped with a **hinged door, clothes rail and integrated upper compartment**, this wardrobe represents a **solid and functional storage solution** for organizing the personal effects of the patient or resident.

With its **optimized dimensions** (W 48.8 x D 60 x H 199.4 cm), the wardrobe is stable and designed for the intensive use typical of hospital environments. The **18 mm thick structure** guarantees strength and durability over time, even in contexts of intensive use.

It is available in **different finishes**, to adapt to the aesthetics of modern or traditional healthcare environments, while ensuring **simple and hygienic cleaning**.

The **presence of the upper compartment** allows for more efficient organization of space, allowing frequent use items to be separated from storage items, while the **clothes rail** offers maximum functionality for keeping the patient's clothing in order.

Make your ward more functional with the **H776_92 wardrobe**! Request a quote now for hospital supplies, nursing homes or private clinics.
