

Pedal bathroom waste bin 5 lt in steel h2064

Steel pedal waste bin with 5 liters capacity and ABS base.

Bathroom pedal waste bin, ideal for places characterized by medium footfall. It can be installed in bars, restaurants, pizzerias, offices and all businesses open to the public.

Both the structure and the lid are made of white painted steel. In its simplicity, the product easily adapts to any bathroom decor.

The **rear handle** facilitates movement.

The **opening pedal** has anti-slip rubber, while the base is in abs.

Steel is a very stable and resistant material, easy to clean and has excellent durability over time.

The fixing is free-standing.

Usage complies with the **HACCP method**, a protocol, a set of procedures, aimed at preventing food contamination hazards.
