

Tray clearing bin with flap door 120 lt h2089

Tray clearing bin in AISI 430 stainless steel with flap door, reversible bottom door and tray holder shelf. Capacity 120 liters, height 122 cm.

The tray clearing bin represents a practical and functional solution for bars, fast-food, self-service and canteens. Made entirely of **AISI 430 stainless steel** with a satin finish, it guarantees ease of cleaning and long-term resistance to atmospheric agents and daily wear. The structure is equipped with a **flap door** for rapid waste disposal, a **reversible bottom door with triangular key lock** for inserting dedicated containers, and a **tray holder shelf** for the correct placement of dishes during service.
