

PE sump pallet for 2 pallets h1042_13

PE sump pallet for 2 pallets h1042_13, capacity 425 L, for 2 euro pallets or 4 x 200 L drums. In high chemical resistance black LLDPE, 4-way forkliftable and DIBt approved.

The **PE sump pallet for 2 pallets h1042_13** is a safety system for **mobile use** and installation in environments dedicated to **transport** or internal storage. Made of high-quality uncoated black LLDPE (polyethylene), it guarantees high chemical resistance and is suitable for **indoor** setup. It allows for the simple storage and containment of solutions such as AdBlue®, brine, liquid fertilizer, antifreeze, windshield washer fluid, chemicals, alkaline solutions, acids, and pesticides, in full compliance with **DIBt Z-40.22-579** approval. The structure is sized to accommodate 2 euro pallets (120 x 80 cm), industrial pallets (120 x 120 cm), and plastic pallets of similar dimensions, allowing the direct positioning of 4 drums of 200 liters (or 60-liter drums). It can be placed directly on the floor without the need for an additional structure, and loaded pallets can be housed directly with a forklift or pallet truck on the 2 galvanized steel grids included. Thanks to the integrated forklift pockets, the container is forkliftable on 4 sides for easy handling and is geometrically stackable to optimize empty spaces.

Technical characteristics

- **Sump capacity:** 425 l
- **Sump capacity to the top brim:** 490 liters
- **External dimensions (L x W x H):** 242 x 88 x 36 cm
- **Weight:** 42.3 kg
- **Load capacity:** 1200 kg
- **Material:** LLDPE (high-quality polyethylene), uncoated
- **Tank color:** black
- **Installation site:** indoor
- **Use / Installation:** Mobile / Transport
- **Storage configuration:** 2 euro pallets (120 x 80 cm), industrial pallets (120 x 120 cm) or plastic pallets of similar dimensions
- **Number of drums:** 4 x 200 l (also suitable for 60/200 l drums)
- **Forkliftable:** yes, on 4 sides (integrated forklift pockets)
- **Fork pocket distance:** 180 mm
- **Fork pocket dimensions:** 195 mm
- **Stackable:** yes
- **Grate material:** galvanized steel
- **Number of grates:** 2
- **Compatible fluids / substances:** AdBlue®, Brine, Liquid fertilizer, Antifreeze, Windshield washer fluid, Chemicals, Alkaline solutions, Acids, Pesticides
- **Approval:** DIBt Z-40.22-579
- **Assembly status:** pre-assembled
- **Warranty in years:** 1
