

Pedal bin for restaurant kitchen h504_60

Professional 90-liter stainless steel bin with pedal opening and wheels, ideal for microbiological hygiene in HoReCa kitchens. This **professional waste bin** is designed to meet the rigorous hygiene requirements of hotel, restaurant, and bar kitchens. The structure promotes hands-free waste management, preventing cross-contamination in food preparation environments. The integration of rear wheels allows for easy movement even when fully loaded, facilitating floor cleaning operations and final bag disposal.
