

Pedal-operated bin h462_28

50-liter professional cylindrical stainless steel bin, equipped with pedal opening and wheels for maximum hygiene in the HoReCa sector.

This **professional cylindrical bin** represents an essential solution for waste management in environments requiring high standards of hygiene and operational practicality. Specifically designed for hotel, restaurant, and bar kitchens, the structure is made entirely of **stainless steel**, a material that guarantees exceptional resistance to corrosion and a non-porous surface, ideal for preventing bacterial proliferation.

Ergonomics is at the heart of the design: the **pedal opening** system allows for waste disposal without any manual contact with the container, complying with food safety regulations. To facilitate internal logistics operations, the bin is equipped with **two swivel wheels** and a rear handle, allowing for smooth and rapid movement between different workstations, even when the load reaches its maximum capacity of 50 liters.

Technical characteristics

- Dimensions: Ø 37 x H 61 cm
- Volumetric capacity: 50 liters
- Material: High-resistance stainless steel
- Opening system: Lid with pedal mechanism
- Handling: Integrated handle and 2 swivel wheels
- Shape: Cylindrical
