

Pedal-operated waste bin h20_198

Professional 110L bin in painted metal and stainless steel (480x420x965mm). HACCP pedal system and removable front for easy bag replacement.

This **professional 110-liter waste bin** represents a robust and functional solution for waste management in high-intensity operational environments. Designed specifically for the HoReCa sector and industrial kitchens, the structure combines the resistance of epoxy powder-coated metal with the stability of stainless steel tubulars. The system is optimized to ensure maximum hygiene and facilitate daily maintenance operations in contexts where speed and cleanliness are essential requirements.

Technical specifications

- **Material:** Metal structure with stainless steel reinforcement tubulars
- **Dimensions:** W.480 x D.420 x H.965 mm
- **Capacity:** 110 liters
- **Operating weight:** 13 kg
- **Finish:** High-resistance protective epoxy paint
- **Color:** Black
- **Opening system:** Large pedal mechanism for hands-free use
- **Mobility:** Rubber wheels for silent and smooth movement
- **Bag management:** Removable front and integrated elastic bag-holder system
- **Compliance:** Design suitable for HACCP protocol
