

Pedal-operated waste bin h504_61

Professional 60-liter stainless steel waste bin with pedal opening and wheels, designed for constant hygiene in kitchens and laboratories.

This professional waste bin represents an essential solution for waste management in environments requiring high cleaning standards, such as **pizzerias, restaurants and pastry laboratories kitchens**. The structure entirely made of **stainless steel** guarantees superior corrosion resistance and a long operational life even in intensive work contexts. The **pedal opening** system has been implemented to ensure maximum hygiene, eliminating the need for manual contact with the container and thus preventing possible cross-contamination.

Technical features

- **Dimensions:** L37 x D40 x H80 cm
- **Capacity:** 60 liters
- **Material:** High-resistance stainless steel
- **Opening system:** Integrated pedal mechanism
- **Base:** Configuration with 2 wheels for movement and 2 support feet for stability
