

Pedal recycling bin h31_344

Pedal recycling bin, in satin-finished steel with 3 buckets. Capacity: 3 x 12 litres. Pedal opening. Dimensions: W 55.5 x D 36 x H 45 cm.

The **pedal recycling bin H31_344** is the ideal choice for professional environments such as **hotels, offices, break areas, company canteens and hotel rooms** where it is necessary to manage waste in a practical, hygienic and orderly manner.

Made of **steel with a satin finish** and **polypropylene** components, this bin combines **modern design and functionality**, blending elegantly into any environment. The **pedal** opening system allows use without direct contact with hands, increasing hygiene, especially in high-traffic contexts.

Inside, the bin is equipped with **3 removable 12-litre buckets each**, for a total capacity of **36 litres**. The **three separate compartments** allow for **simple and efficient management of waste separation**, promoting the correct separation of waste (organic, plastic, paper, etc.).

Compact and space-saving, with a **height of only 45 cm**, it can be easily placed under a worktop, in a corner of the room or next to other professional furniture.

Improve waste management in your facility with a compact, elegant and functional solution. Buy the **H31_344 bin** now or request a quote for Horeca and company supplies.
