

Pedestrian barrier for urban furniture h19171

Urban furniture barrier with tubular steel frame. Galvanized and powder-coated structure. Fixing: to be buried. Height above ground: 108 cm.

Urban furniture barrier designed to allow you to customize the section of the path you want to delimit. The pedestrian barrier can be mounted either way, **with the design facing upwards or downwards**, creating a pleasant interplay of lines. The tubular steel frame (160x80 cm) is in fact bolted to the square-section side posts to allow for maximum flexibility of composition.

The barrier is supplied with extensions of the side posts **to be buried in the ground** by casting a portion of them directly on site.

Technical features:

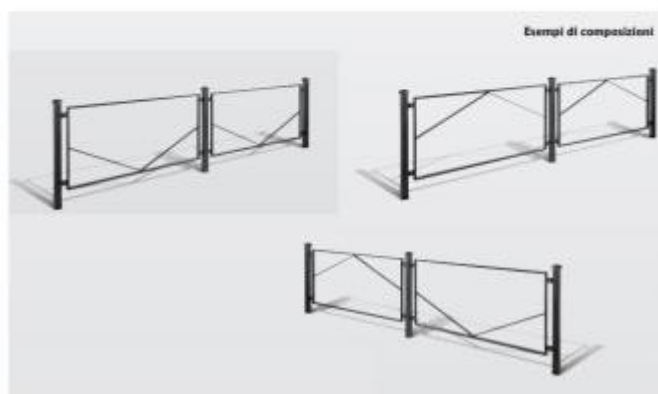

- Tubular steel frame
- Barrier composed of a frame and 2 posts
- Color: **micaceous gray**
- Fixing: to be buried
- Dimensions: 180 x 128 cm
- Height above ground: 108 cm
- Weight: 30 kg
- Made in Italy

Upon request and subject to a quote, it is possible to create compositions by adding continuous barriers and the final post.

INFORMATION

- **Length in millimetres** 1800.000000
- **Height in millimetres** 1080.000000
- **fixing** da interrare
- **warranty** 1 anno
