

Pedestrian barrier with advertising panel h140_339

Pedestrian barrier for urban furniture **with panel** for advertising posters. Dimensions: W.2000 x 1000 mm.

Pedestrian barrier for urban furniture ideal for the delimitation and safety of restricted areas, made entirely of **galvanized steel with a panel for advertising posters**. It features a sequential connection system for easy installation and anchoring to the ground. Structure made with a perimeter frame in galvanized steel square tube equipped with plates, on both sides, for sequential connection and at the base for anchoring to the ground by means of anchor bolts and expansion plugs. Central part made of framed galvanized steel sheet and anchored to the structure by shaped side brackets. The central part can serve as a **double-sided advertising panel**. The standard finish for this product is "gunmetal" color, characterized by a dark gray color with a metallic effect. The painting technique used for the galvanized steel structure is **thermosetting powder coating with oven baking**.
