

Pedestrian barrier with decorations h287_131

Galvanized steel boundary barrier with central flower-shaped decorative element. Dimensions: W100 x H128 cm

Pedestrian barrier for urban furniture perfect for delimiting and beautifying pedestrian areas, cycle paths, and private areas. Structure **to be buried in the ground**. **Galvanized steel** finishes subjected to a **pre-treatment process for degreasing impurities** through solutions and vapors, subsequently dried and painted covering the pieces **with non-toxic powders** and finally subjected to **oven polymerization** to allow the powder to solidify. The structure consists of **2 galvanized steel round tube posts with a diameter of 60 mm** with a **sphere-shaped cast steel decorative element** at the top. Inside, the structure features a **86 x 60h cm frame in galvanized steel tubing** with an **internal cross** also in galvanized steel tubing, decorated in the center with **2 flower-shaped forged steel elements (1 per side)**.

Technical characteristics:

- Dimensions: W100 x H128 cm
- Material: galvanized steel
- Fixing: to be buried by 20 cm

INFORMATION

- Length in millimetres 1000.000000
- Height in millimetres 1280.000000
- fixing da interrare
