

Pediatric changing table with 4 feet h919_43

Pediatric changing table H919_43 in steel with padded top 1200x600 mm, lower shelf, load capacity 50 kg. Ideal for hospitals and pediatric clinics.

The H919_43 pediatric changing table is designed specifically for healthcare environments where **comfort and safety during diaper changing or dressing** are priorities. Intended for hospitals, pediatric clinics, counseling centers, nurseries and medical centers, it guarantees a solid operational base for healthcare personnel while maintaining the maximum well-being of the small patient thanks to a stable structure, resistant materials and suitability for frequent sanitization.

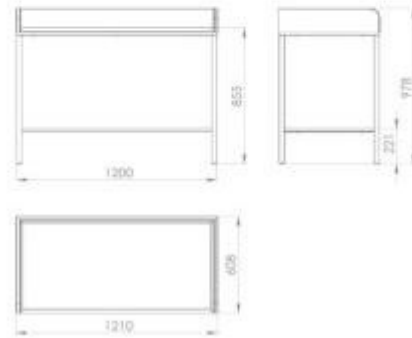

Technical features
