Pediatric hospital bed for healthcare facilities h919_34

Hospital bed in steel with Trendelenburg positions, 160×60 cm, capacity 100 kg. For clinics and hospitals.

Bed designed for **clinics and hospitals**, dedicated to patient comfort and therapeutic support during stays and treatments. The **rectangular steel tube** structure with epoxy finish guarantees strength, hygiene, and ease of sanitization, essential requirements in healthcare settings. The adjustment system allows for the therapeutic positioning of the patient, facilitating clinical interventions, post-operative drainage, and management of specific conditions.
